Mathematical understanding

Multiplication and Division (2)

Length and Perimeter

Scientific and technological understanding

States of Matter

We will:

- compare and group materials together, according to whether they are solids, liquids or gases
- observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)
- identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature

Spring 1, 2025
